FISCAL STRESS MONITORING

What is the Comptroller's Fiscal
Stress Monitoring System?

The System is...

- OSC's program to objectively identify issues with budgetary solvency—the ability to generate enough revenue to meet expenditures—for each county, city, town, village and school district.

How Does it Work?

- The System analyzes the financial information submitted to OSC by local governments against a set of uniform financial and environmental indicators.

Financial Indicators...

- measure key drivers of fiscal stress in local government financial operations.

School Districts:

- Year-End Fund Balance
- Operating Deficits/Surpluses
- Cash Position
- Reliance on Short-Term Cash-Flow Debt

Environmental Indicators...

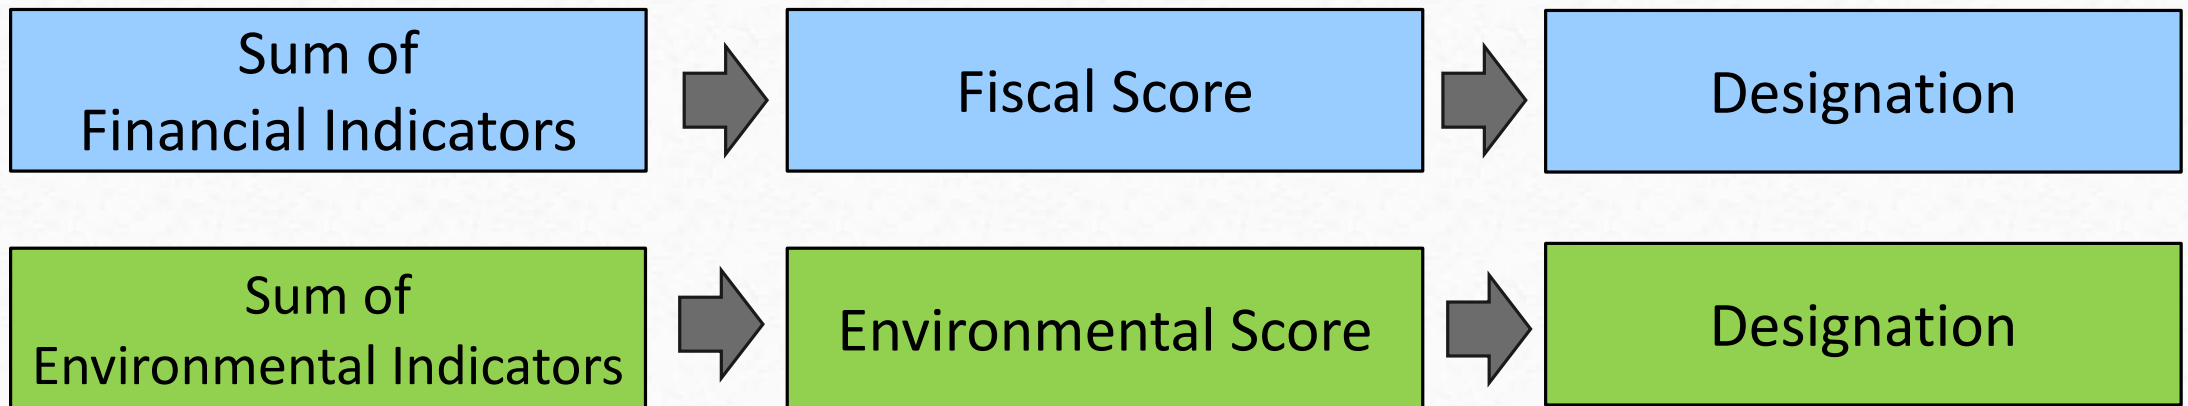

- provide insight about economic and demographic forces confronting communities—that are beyond the immediate control of local officials but might influence revenue-raising capability and the demand for certain types of services.

School Districts:

- Percent of Economically Disadvantaged Students
- Class Size
- Teacher Turnover Rate
- Change in Property Value
- Budget Vote Approval Rate
- Percent of English-Language Learners

How are the Results Calculated?

- OCS provides each local government with two scores, and two resulting designations. The underlying indicators are measured on a 100-point scale. Designations are made for scores falling within certain ranges.

Scores Determine Designations (Stress Category):

Significant Stress	Moderate Stress	Susceptible to Stress	No Designation
--------------------	-----------------	-----------------------	----------------

District's Fiscal and Environmental Scores

FYE	Fiscal Stress		Environmental	
	Score	Designation	Score	Designation
2018	0.0%	No Designation	0.0%	No Designation
2019	0.0%	No Designation	5.0%	No Designation
2020	0.0%	No Designation	15.0%	No Designation
